Installation Addon

1. Parallel Approval Process (**PAP**) for JIRA will download the corresponding version compatible with your exiting JIRA version.

2. Administrator credential for JIRA is required

3. Click cog icon on the right corner and select 'add-on'

4. Click the 'Manage add-on' menu on the left side

5. Click the 'Upload add-on' link on the page and select the **PAP** add-on downloaded in step 1

6. Click 'Upload' button and wait until the add-on is installed successfully

7. Refresh the page and find Parallel Approval Process (**PAP**) from the menu on the left hand side and select 'License'

8. Paste license code

Compatibility:

Parallel Approval Process is compatible with JIRA 7.x.
